Y/ref : Khursaniyah Al Fadhili - D43-K-1801 -
O/ref : D41104 quotation number 3

In response to your inquiry referenced above, we are pleased to confirm our quotation as follows :

ITEM A 1 : Flender Graffenstaden (FG) High Speed increaser, model **TX50/4C**

- *Rating conditions :* Rated power at **6800 kW**
Driven by a electric motor at **1800.0 rpm** (specified : 1800.0 rpm)
Driving a centrifugal compressor at **7309.1 rpm** (specified : 7285.0 rpm)
Service factor **1.45** according to **API613/03** (required : > 1.4)

- *Technical description :* Double helical
Manufacturing according to API standard
Flange on LS shaft end
Flange on HS shaft end
Estimated Weight : 4000 kg

- *Bearings description :* 2 cylindrical bearings on LS shaft
2 offset bearings on HS shaft
1 double acting tilting pad thrust bearing on low speed shaft non driven end

- *Mechanical running test :* Full speed, no load test during 4 hours according to the API 613 5th Edition standard.

- *Lubrication conditions :* 164 l/min of Oil ISO VG 46 at 60°C and 2.5 bar at inlet (calculated values only)

- *Miscellaneous:* Efficiency at full load : 99.03 %
Power losses at full load : 66 kW (calculated value only)
Anticipated Sound Pressure Level: 82.0 ± 2dB(A) at 1 meter

Base price : 117 900 EUR each gear box
Delivery time : 36 weeks after the FG acknowledgement of the order
Quantity : 8 gearboxes

Comments :

- Coupling data taken into account on HS Shaft:
 - o Weight: 26.6 kg
 - o Center of gravity position from shaft end: 30.9 mm
 - o Inertia: 0.266 kgm²
- Coupling data taken into account on LS Shaft:
 - o Weight: 87.5 kg
 - o Center of gravity position from shaft end: 40.9 mm
 - o Inertia: 0.875 kgm²

Including :

- Customer witness of test
- After test disassembly and inspection
- Noise level test report
- Lateral analysis undamped
- Documentation : downloadable electronic file in english

Instrumentation (see the complete package on additional technical data sheet):

- *Temperature package*
12 RTD's PT100 Duplex 3 wires from Thermo Electric Company Inc.
(2 per bearing and thrust bearing side) not wired with terminal heads..... Price included
- *Bently Nevada vibration package*
8 radial (4 per shaft) & 2 axial (on LS shaft) vibration probes, 2 accelerometers (1 per shaft), 2
keyphasors (1 per shaft) not wired Price included

Spare parts (Prices are net valid only if spares are ordered together with the gearbox):

- *Commissioning Spares*
2 RTD's, 2 BN vibration probes, 2 BN accelerometers 7 900 EUR Lot Net
- *2 Years Normal Operation Spares*
2 set of bearings with RTD's, 1 set of oil seals 48 420 EUR Lot Net
- *Strategic Spare Parts*
One complete set of rotating elements consisting of one pinion and one gear.
Tested if ordered together with the main gearbox according to API613/03
Full Speed, No Load, with Test Report..... 51 500 EUR Lot Net
- *Container for horizontal spare rotors storage painted according FG standard..... 17 100 EUR Lot Net*

FLENDER GRAFFENSTADEN

FLENDER-GRAFFENSTADEN S.A., FRANCE
BP 84, F-67402 ILLKIRCH-CEDEX
1, rue du Vieux Moulin
F-67400 ILLKIRCH-GRAFFENSTADEN

Y/ref : Khursaniyah Al Fadhili - D43-K-3801 -
O/ref : D41104 quotation number 3

ITEM B 1 : Flender Graffenstaden (FG) High Speed increaser, model **TX40/5C**

- *Rating conditions :* Rated power at **1620 kW**
Driven by a electric motor at **1800.0 rpm** (specified : 1800.0 rpm)
Driving a centrifugal compressor at **10737.9 rpm** (specified : 10736.0 rpm)
Service factor **1.47** according to **API613/03** (required : > 1.4)

- *Technical description :* Double helical
Manufacturing according to API standard
Flange on LS shaft end
Flange on HS shaft end
Estimated Weight : 1900 kg

- *Bearings description :* 2 cylindrical bearings on LS shaft
2 tilting pads bearings on HS shaft
1 double acting tilting pad thrust bearing on low speed shaft non driven end

- *Mechanical running test :* Full speed, no load test during 4 hours according to the API 613 5th Edition standard.

- *Lubrication conditions :* 64 l/min of Oil ISO VG 46 at 60°C and 2.5 bar at inlet (calculated values only)

- *Miscellaneous:* Efficiency at full load : 98.70 %
Power losses at full load : 21 kW (calculated value only)
Anticipated Sound Pressure Level: 82.0 ± 2dB(A) at 1 meter

Base price : 103 850 EUR each gear box

Delivery time : 36 weeks after the FG acknowledgement of the order

Quantity : 1 gearbox

Comments :

- Coupling data taken into account on HS Shaft:
 - o Weight: 10.4 kg
 - o Center of gravity position from shaft end: 28.2 mm
 - o Inertia: 0.104 kgm²
- Coupling data taken into account on LS Shaft:
 - o Weight: 26.4 kg
 - o Center of gravity position from shaft end: 30.9 mm
 - o Inertia: 0.264 kgm²

Including :

- Customer witness of test
- After test disassembly and inspection
- Noise level test report
- Lateral analysis undamped
- Documentation : downloadable electronic file in English

Instrumentation (see the complete package on additional technical data sheet):

- *Temperature package*
12 RTD's PT100 Duplex 3 wires from Thermo Electric Company Inc.
(2 per bearing and thrust bearing side) not wired with terminal heads..... Price included
- *Bently Nevada vibration package*
8 radial (4 per shaft) & 2 axial (on LS shaft) vibration probes, 2 accelerometers (1 per shaft), 2 keyphasors (1 per shaft) not wired Price included

Spare parts (Prices are net valid only if spares are ordered together with the gearbox):

- *Commissioning Spares*
2 RTD's, 2 BN vibration probes, 2 BN accelerometers 7 900 EUR Lot Net
- *2 Years Normal Operation Spares*
1 set of bearings with RTD's, 1 set of oil seals 26 010 EUR Lot Net
- *Strategic Spare Parts*
One complete set of rotating elements consisting of one pinion and one gear.
Tested if ordered together with the main gearbox according to API613/03
Full Speed, No Load, with Test Report..... 37 100 EUR Lot Net
- *Container for horizontal spare rotors storage painted according FG standard..... 15 850 EUR Lot Net*

50 Outdoor storage over 6 mos.	<input type="checkbox"/>	3 years indoor <input type="checkbox"/> (4.4.3.9)

1 **○ ADDITIONAL REQUIREMENTS**

2 **○ VIBRATION DETECTORS**

RADIAL (3.4.2.1) (2.7.4.5) (2.7.4.6)

Manufacturer BENTLY NEVADA Total No. 8

X-Y probes pinion bearings Coupling end Blind end

X-Y probes gear bearings Coupling end Blind end

Other _____

AXIAL (3.4.2.1) (2.7.4.5) (2.7.4.6)

Manufacturer BENTLY NEVADA Total No. 2

Dual probes at each thrust bearing

Single probe any shaft without thrust bearing

Other _____

ONE EVENT PER REVOLUTION PROBE (2.7.4.5) (2.7.4.6)

Manufacturer BENTLY NEVADA Total No. 2

One on input shaft One on output shaft

Other _____

ACCELEROMETER (3.4.2.1) (2.7.4.5) (2.7.4.6)

Manufacturer BENTLY NEVADA No. required 2

Pinion coupling end Gear coupling end

Other _____

3 **○ TEMPERATURE DETECTORS**

Dial type thermometers (3.4.2.7) _____

Type brg. temp. sensors (3.4.2.7) (2.7.1.3) PT100

RTD Thermocouple / Simplex Duplex

Calibration Yes

HSALS bearings no. sensors each 2 / 2

Thrust number of sensing elements each face 2

4 **○ OTHER VIBRATION AND TEMPERATURE**

(3.4.2.5) (3.4.2.6)	Other	Gear vendor
Oscillator demodulator supplied by	<input type="checkbox"/>	<input checked="" type="checkbox"/>

50	(Specify)			

NOTES : _____

During start-up, gears can exhibit a transient spike reading of vibration levels that will exceed shutdown settings. Therefore a trip multiplier is recommended in the control system.

Mechanical running test duration 4 hours including

- Shaft vibration record using job vibration probes if ordered
- Bearings temperature records
- Casing vibration measurement
- Sound level pressure measurement
- Power losses measurement at oil outlet
- Performed with oil ISO VG 32

Oil flow requirement and power losses are calculated values only, add normal safety margins for sizing heat exchangers.

PRELIMINARY MASS ELASTIC DATA

Customer : Siemens AG Duisburg
 Destination : Khursaniyah Al Fadhihi
 Purchaser order :
 F-G job number : D 4:10481 OL
 Type and serial N° : TX40/5C

Power rating : 1620 kW
 Service factor : AP1613.03 >=1,4
 Input speed : 1800 rpm
 Output speed : 10737,9 rpm
 Speed ratio : 5,96

Weight HSS : 30,5 kg
 Weight pos. from teeth middle HSS : 57,5 mm
 Inertia HSS : 0,038 Kg.m²
 Stiffness HSS : 1,11 MN/mrd
 Bearing type 1 : Tilting pads 80 x 56
 Bearing type 2 : Tilting pads 80 x 56
 Add. weight on brg. side 1 : 10,4 kg

Weight LSS : 574,3 kg
 Weight pos. from teeth middle LSS : 9 mm
 Inertia LSS : 28,526 Kg.m²
 Stiffness LSS : 6,5 MN/mrd
 Bearing type 4 : Cylindrical 120 x 60
 Bearing type 3 : Cylindrical 120 x 60
 Add. weight on brg. side 4 : 26,4 kg

Commercial Conditions

- Prices are quoted FCA Illkirch-Graffenstaden following Incoterms 2010 including packing cat 1A of SEI, 1999 issue, ind. 2.
- Progress payments : 100% at delivery.
- This quotation is subjected to the Flender Graffenstaden Standard Terms and Conditions of Sales and valid for acceptance until the 15th of July 2015.
- Where approval of drawings is required, approval must be in line with the document schedule.
- Warranty period is 18 months of operation or 24 months after delivery whichever occurs first. We recommend the supervision of our engineer for the commissioning.
- Flender-Graffenstaden SAS shall not be obligated to fulfill this agreement if such fulfillment is prevented by any impediments arising out of national or international foreign trade or customs requirements or any embargoes or other sanctions.

Applicable documents for the quotation (available on demands)

Documents schedule,
Quality plan
Painting standard,
Standard Terms and Conditions of Sales

We thank you for the opportunity of quoting and look forward to the pleasure of serving you.

Very truly yours,

N. HOST
(Project Engineer)

Y. FRIEDMANN
(Sales Manager)
